

## SURFACE SEALER

AQUA Tite Surface Sealer is a high performance coating made with premium acrylic polymers designed for long lasting and durable wear. Surface Sealer will bond to virtually any substrate such as: Tile, Grout and Caulking, Concrete, Wood, Plastic, and Metal. Surface Sealer is a solution for a range of problems commonly found in the maintenance of structures. Its remarkable seal will protect concrete and other hard surfaces, which provides for easy cleaning and preservation.

\*This product contains an EPA registered microbicide for the purpose of resisting the growth of algae and fungi on the coating only.

**Make your space AQUA Tite**

1 GALLON (3.785 LITERS)

MADE IN THE USA

### **SURFACE PREPARATION:**

Surfaces must be clean, sound and free of any dirt, dust, grease and other contaminants. Wash with an acceptable cleaner and remove any existing mold or mildew with a mold and mildew cleaner or household bleach.

### **APPLICATION INSTRUCTIONS:**

Apply with a garden sprayer or backpack sprayer, soft cloth or towel. For areas where over spray is not desired, a roller or micro fiber applicator may be used. Mask, eye protection and gloves recommended.

**CURING:** Allow 24 hours to dry before any water is applied. Up to 7 days for full cure.

**COVERAGE:** 750-1000 sf per gallon. This will vary depending upon surface porosity.

**STORAGE AND DISPOSAL:** Do not contaminate food or feed by storage, disposal or cleaning of equipment. Do not allow this product to freeze. Keep container tightly sealed after use. Triple rinse empty container for proper disposal or recycling in accordance with local, state and federal law.

**WARNING: Keep out of reach of children. Harmful if swallowed.**

- Causes skin irritation • Harmful if inhaled • Can cause eye irritation
- May cause allergic skin reaction • Do not use around food products

**FIRST AID TREATMENT:** If in eyes: Hold eye open and rinse with water for 15-20 minutes. Call a physician or poison control center for treatment advice. If on skin or clothing: Remove contaminated clothing. Rinse skin immediately with water for 15-20 minutes. If inhaled: Move to fresh air. If Swallowed: Do not induce vomiting. Seek medical attention.
